

WHO IS THE HEAD?

Victor Cortes

Who is the head?

Who is the leader? The one who leads all of his people.

Who is the ruler? The one who rules all of his people.

What did the people think of the head?

Some loved it,

Others hated it.

Some wanted it to stay, to be intact.

Others wanted it to be removed, to decapitate it.

It cared for its people—

Or was this only because they gave it the power it wanted?

In its attempt to make everyone happy,

It made no one happy.

In its attempt to make no one happy,

It made everyone happy.

It saw everything but at the same time saw nothing.

It saw nothing but at the same time saw everything.

It gave freedom but at the same time gave restrictions.

It gave happiness but at the same time gave melancholy.

It gave life but at the same time gave death.

All to the point where there was no longer a head:

It was now just chaos....

The head was beheaded.

The head was nothing but a head,

But after it was beheaded there was everything but a head.
